About NSBE

The National Society of Black Engineers (NSBE) originally began as the Society of Black Engineers (SBE) at Purdue University in 1971. The organization as it is known today was formed in 1975 when 32 Black engineering organizations at universities throughout the US joined to form the National Society of Black Engineers in the inaugural national meeting.

NSBE has since grown from the original six members of the BSE to 30,000 members. The annual meeting has blossomed into the Annual National Convention, hosting over 8,000 attendees. NSBE has grown from one (1) chapter to more than 790 chapter. Headquartered in Alexandria, Va., NSBE offers academic excellence programs, scholarships, leadership training, professional development and access to career opportunities for thousands of members annually. With over 2000 elected leadership positions, 12 regional conferences and an annual convention, NSBE provides opportunities for success that remain unmatched by any other organization

NSBE remains committed to the advancement of its mission statement; 'To increase the number of culturally responsible Black engineers who excel academically, succeed professionally and positively impact the community;' with \$500,000 in scholarships awarded annually, tutoring and academic support, community volunteering events and the well-attended regional and national conferences.

About the Milwaukee Area Professional Chapter of NSBE

The goal of the Milwaukee Area Professionals (MAP) is to further the mission of NSBE in the Greater Milwaukee area. We are devoted to providing opportunities to our collegiate counterparts for meaningful engagement with industry, advancing our members' technical and professional development, encouraging fellowship among Black engineers, and increasing engagement and academic achievement in the Black engineering community.

As an Alumni extension, MAP supports NSBE in a way that:

- Develops and enhances NSBE programs
- Increases technical awareness
- Encourages scholastic achievement
- Engages the Black engineering community to promote technical expertise, professionalism, and fellowship among Black engineers
